Fourth Quarter of Fiscal 2014 Financial Results

REVENUES. Revenues increased 14.2% to RMB151.9 million (\$24.4 million) in the fourth quarter of fiscal 2014 from RMB133.0 million in the prior year period, driven mainly by increased pricing implemented since April 2013, the addition of new subscribers, and the increased contribution of storage revenue from the Company's expanded accumulated subscriber base.

Revenues generated from storage fees increased to RMB44.0 million (\$7.1 million), up from RMB37.0 million in the prior year period. As a result of the expanded subscriber base, revenue from storage fees, as a percentage of total revenue, increased to 28.9%.

Revenues generated from processing fees in the fourth quarter were RMB107.9 million (\$17.3 million), up from RMB96.0 million in the prior year period due to higher pricing and an increase of new subscribers. 17,136 new subscribers were recorded during the fourth quarter of fiscal 2014, representing a 6.7% year-over-year increase. Revenues generated from processing fees accounted for 71.1% of total revenues, compared to 72.2% in the prior year period.

¹ The terms of the convertible notes issued to KKR China Healthcare Investment Limited ("KKR") and Golden Meditech Holdings Limited ("Golden Meditech") provide each party with the ability to participate in any excess cash dividend. Therefore, the calculation of basic EPS has taken into consideration the effect of such participating rights of RMB0.08 (\$0.01) and RMB0.21 (\$0.03) for the three months and year ended March 31, 2014, respectively.

GROSS PROFIT. Gross profit for the fourth quarter of fiscal 2014 amounted to RMB124.6 million (\$20.0 million) from RMB106.1 million in the prior year period. Gross margin stood at 82.0%, as the Company benefitted from increased storage revenue as a percent of the overall revenue and from economies of scale.

OPERATING INCOME. Operating income for the fourth quarter was RMB64.0 million (\$10.3 million), compared to RMB50.7 million in the prior year period. Operating margin increased to 42.1% from 38.2% in the prior year period. The increase was mainly due to higher gross profit, offset in part by an increase in operating expenses. Depreciation and amortization expenses for the fourth quarter were RMB9.8 million (\$1.6 million).

Research and Development Expenses. Research and development expenses amounted to RMB2.5 million (\$0.4 million).

Sales and Marketing Expenses. Sales and marketing expenses for the fourth quarter amounted to RMB28.4 million (\$4.6 million), compared to RMB26.1 million in the prior year period. The increase in sales and marketing expenses is in-line with the overall increase in sales activities. But as a percentage of revenue, 2014 fourth quarter sales and marketing expenses decreased to 18.7% from 19.6% in the prior year period, and remained the same as the third quarter of fiscal 2014.

General and Administrative Expenses. General and administrative expenses increased modestly to RMB29.6 million (\$4.8 million), from RMB27.0 million in the prior year period. However as a percentage of revenue, general and administrative expenses were 19.5%, down from 20.3% in the prior year period.

OTHER INCOME AND EXPENSES

Interest Expense. Interest expense decreased to RMB17.0 million (\$2.7 million) from RMB22.1 million in the prior year period. The decrease was largely attributable to the increase in the capitalization of interest expense for the Company's construction of new facilities. Interest expense capitalized in the fourth quarter of fiscal 2014 amounted to RMB7.0 million (\$1.1 million), compared to RMB1.3 million in the prior year period.

NET INCOME ATTRIBUTABLE TO THE COMPANY'S SHAREHOLDERS. Due primarily to the increase in operating income and the reduction in interest expense, net income attributable to the Company's shareholders for the fourth quarter of fiscal 2014 increased to RMB39.5 million (\$6.4 million) from RMB23.0 million in the prior year period. Net margin for the fourth quarter of fiscal 2014 stood at 26.0%.

EARNINGS PER SHARE. The terms of the convertible notes issued to KKR and Golden Meditech provide each party with the ability to participate in any Excess Cash Dividend². Therefore, the calculation of basic and diluted EPS incorporates the effect of such participating rights of RMB0.08 (\$0.01). Basic and diluted earnings per ordinary share for the fourth quarter of fiscal 2014 were RMB0.46 (\$0.07).

² "Excess Cash Dividend" means any cash dividend to holders of shares that, together with all other cash dividends previously paid to holders of shares in the same financial year, exceeds, on a per share basis, an amount equal to the interest that has accrued and shall accrue at 7% in such financial year divided by the number of shares into which the note is convertible at the conversion price then in effect on the relevant record date.

LIQUIDITY. As of March 31, 2014, the Company had cash and cash equivalents of RMB1,882.9 million (\$302.9 million) compared to RMB1,494.1 million as of March 31, 2013. The Company had total debt of RMB837.8 million (\$134.8 million) as of March 31, 2014. Operating cash flow for the quarter amounted to RMB137.4 million (\$22.1 million).

Full Year Fiscal 2014 Financial Results

For the 2014 fiscal year, total revenues increased 8.9% to RMB572.9 million (\$92.2 million) from RMB526.1 million in the prior year. The increase was largely attributable to the implementation of higher service fees and the expansion of the Company's accumulated subscriber base to 376,623 subscribers, which outweighed the impact of the decrease in new subscriber numbers after the Dragon year. Revenues from processing fees increased slightly by 2.4% but storage fees grew by 28.7%. Gross profit increased 11.2% to RMB466.6 million (\$75.1 million) from RMB419.5 million in the prior year. Operating income increased 10.8% to RMB231.9 million (\$37.3 million) from RMB209.3 million in the prior year. Net income attributable to the Company's shareholders totaled RMB131.9 million (\$21.2 million). Basic and

diluted earnings per share attributable to ordinary shares were RMB1.60 (\$0.26). Net cash provided by operating activities for the full year of fiscal 2014 was RMB536.0 million (\$86.2 million), compared to RMB578.6 million in fiscal 2013.
