The Board does not have a formal policy on Board candidate qualifications. The Board may consider those factors it deems appropriate in evaluating director nominees made either by the Board or shareholders, including judgment, skill, strength of character, experience with businesses and organizations comparable in size or scope to the Company, experience and skill relative to other members of the Board, and specialized knowledge or experience. Depending upon the current needs of the Board, certain factors may be weighed more or less heavily. In considering candidates for the Board, the directors evaluate the entirety of each candidate’s credentials and do not have any specific minimum qualifications that must be met.

Special Committee

On June 5, 2019, a Special Committee, consisting of Mr. Mark D. Chen (Mr. Chen is the chairman of our Special Committee), Ms. Jennifer J. Weng and Dr. Ken Lu, was formed by our Board of Directors, to evaluate the CGL Proposal.

On or about June 26, 2019, an originating summons, *vide* FSD Cause No. 122 of 2019 was filed by Jayhawk Capital Management, L.L.C., JHMS Fund, LLC and Kent C. McCarthy (the “Plaintiffs”) in the Grand Court of the Cayman Islands, Financial Services Division against the Company, Mr. Mark D. Chen, Ms. Jennifer J. Weng and Dr. Ken Lu (the “Defendants”). The Plaintiffs allege, among other things, that the consideration to be paid for the CGL Proposal is inadequate, and the above-named members of the Special Committee have failed to exercise any independence. The proceedings seek, among other relief, to enjoin the Defendants from proceeding with the CGL Proposal and to direct Defendants to revoke the appointment of such members of the Special Committee. The initial hearing took place on July 17, 2019, during which the Court adjourned the Plaintiffs’ application for an injunction in view of certain undertakings to be provided by the Defendants. A further hearing took place on September 13, 2019, during which the Court adjourned the matter until the first mutually convenient date in January 2020 without setting any pre-trial directions. The Company has reviewed the allegations contained in the summons and believes they are without merit. The Company intends to defend the litigation vigorously.

As of the date of this Proxy Statement, the special committee is still considering and evaluating the proposal by Cordlife Singapore, but it has not made any decision regarding the CGL Proposal.

Corporate Governance

Our Board of Directors has adopted a code of business conduct and ethics applicable to our directors, officers and employees. In addition, it has adopted a set of corporate governance guidelines. The guidelines reflect certain guiding principles with respect to our Board structure, procedures and committees. These guidelines are not intended to change or interpret any law, or our amended and restated memorandum and articles of association.

We are incorporated under the laws of the Cayman Islands, our home country, with securities publicly traded in the United States on the NYSE.

The NYSE Rules permit foreign private issuers to follow applicable home country corporate governance practices in lieu of the NYSE corporate governance standards, subject to certain exceptions. Foreign private issuers electing to follow home country corporate governance rules are required to disclose the principal differences in their corporate governance practices from those required under the NYSE Rules. Except as set forth below, there are no material differences in the Company’s corporate governance practices from those of U.S. domestic companies under the listing standards of the NYSE.

Under the NYSE Listed Company Manual, shareholder approval is required prior to the issuance of common stock (or securities convertible into common stock) amounting to more than (i) 20% of the listed company’s currently outstanding common stock in an offering that does not constitute a “public offering” as defined under the NYSE rules, and (ii) one percent to a director, officer or 5% security holder of the company, or a related party, or certain companies, entities or persons with relationships with the related party. The NYSE Listed Company Manual also provides that if the related party involved in the transaction is classified as such solely because such person is a 5% security holder, and if the issuance relates to a sale of stock for cash at a price at least as great as each of the book and market value of the issuer’s common stock, then shareholder approval will not be required unless the number of shares exceeds either five percent of the number of shares or voting power of the company. We currently expect to use this exception to enable us to raise capital from time to time, on market terms approved by our Board and Audit Committee, consistent with our past practice. In accordance with applicable current NYSE requirements, we have provided to the NYSE letters from outside counsel certifying that the Company’s practices in these areas are not prohibited by our home country law.

The NYSE Listed Company Manual provides that a majority of the Board of Directors and each member of a listed company's Nominating and Corporate Governance Committee must be "independent" as set forth in Section 303A.02 of the NYSE Listed Company Manual. We currently expect to use this exception to enable us to maintain a Board which half of its members are independent directors and to appoint non-independent director(s) to our Nominating and Corporate Governance Committee. In accordance with applicable current NYSE requirements, we have provided to the NYSE letters from outside counsel certifying that the Company's practices in these areas are not prohibited by our home country law.

Insider Trading Policy

Directors, executive officers and employees may acquire confidential information from time to time through their employments by or fiduciary relationships with GCBC.

Our Board of Directors has established an insider trading policy reinforcing the principles behind the insider trading prohibition under U.S. laws. Among other things, directors, executive officers and employees are prohibited from executing any trade in securities of our company and any other company about which they acquire material non-public information in the course of their duties for our company.

Anti-Corruption Program

We have adopted and revised our internal policy concerning anti-corruption and we strictly comply with all applicable anti-corruption laws. This includes, but is not limited to, the People's Republic of China Criminal Law and the People's Republic of China Anti-Unfair Competition Law, the Foreign Corrupt Practices Act, the United Kingdom Bribery Act, and anti-bribery legislation enacted by each signing country in accordance with the Organization for Economic Co-operation and Development Convention on Combating Bribery of Foreign Public Officials in International Business Transactions.

The compliance policy prohibits any director, executive officer or employee from offering, paying or accepting of any money or anything of value directly or indirectly to or from anyone, in order to secure an improper advantage or induce conduct that amounts to a breach of an expectation that a person will act in good faith, impartially, or in accordance with a position of trust. These types of payments are in violation of our policies and we have adopted a "zero tolerance" approach in this regard.

Litigation

To the best of the Company's knowledge, there have been no material proceedings to which any director or officer is a party adverse to the Company or any of its subsidiaries or has any material interest adverse to the Company or any of its subsidiaries.

Executive Compensation Discussion and Analysis

This section discusses the compensation we paid in previous fiscal years to certain executive officers, which we refer to as the "named executive officers". These named executive officers include:

- Ms. Ting Zheng, who is our chairperson of the Board, chief executive officer of the Company and the Beijing division;
- Mr. Albert Chen, who is our chief financial officer and director;
- Ms. Rui Arashiyama, who is our chief executive officer of the Guangdong and Zhejiang divisions; and
- Ms. Xin Xu, who is our chief technology officer.

Compensation Discussion and Analysis

The primary objectives of our compensation policies with respect to executive compensation are to attract and retain the best possible executives to lead us and to properly motivate these executives to perform at the highest levels of which they are capable. Compensation levels established for our executives are designed to promote loyalty, long-term commitment and the achievement of its goals, to motivate the best possible performance and to award achievement of budgetary goals to the extent such responsibility is within the executive's job description. Compensation decisions with respect to our named executive officers have historically focused on attracting and retaining individuals who could help us to meet and exceed our financial and operational goals. Our Board of Directors considered the growth of the company, individual performance and market trends when setting individual compensation levels.

For the fiscal years ended March 31, 2017, 2018 and 2019, the compensation of the above executive officers substantially consisted of a base salary, an annual bonus and other benefits, each of which is described in more detail below:

- **Base salary.** We believe that the base salary element is required in order to provide these executive officers with a stable income stream that is commensurate with their responsibilities and competitive market conditions. Our Board of Directors established base salaries payable to the named executive officers with the goal of providing a fixed component of compensation, reflecting the executive officer's skill set, experience, role and responsibilities. The determination of our Board of Directors and Compensation Committee of whether any of the named executive officers merited an increase in base salary during any particular year depended on the individual's performance during the prior fiscal year, our performance during the prior fiscal year and competitive market practices. In establishing the current base salary levels, our Board of Directors and Compensation Committee did not engage in any particular benchmarking activities or engage any outside compensation advisors.
- **Annual bonus.** Bonus for any of the above executive officers are discretionary and is generally linked to his or her individual performances for the year, including contribution to our strategic and corporate operating plans and providing executive officers performance incentives for attaining specific goals.
- **Severance benefits.** Prior to June 30, 2009, there were no written employment contracts between us and any of the named executive officers. On June 30, 2009, GCBC entered into service contracts with named executive officers and these officers are entitled to severance payments under certain circumstances. See "— Employment Agreements".
- **Share-based compensation.** In February 2011, at our annual general meeting, our shareholders approved a restricted share unit scheme ("Incentive Plan") which was subsequently amended in August 2014. In December 2014, 7,300,000 restricted share units ("RSUs") were granted to certain executives, directors and key employees under the Incentive Plan, subject to certain performance conditions. In March 2018, all the 7,300,000 RSUs were fully vested and no RSUs were issued thereafter. No RSUs were outstanding as of March 31, 2019. See "— Incentive Plan".

Employment Agreements

On June 30, 2009, GCBC entered into service contracts with named executive officers, including Ms. Ting Zheng, Mr. Albert Chen, Ms. Rui Arashiyama and Ms. Xin Xu. These officers are entitled to severance payments under certain circumstances, including a change of control of GCBC. Except for these service contracts, GCBC does not have other service contracts with its directors or executive officers and does not set aside any amounts for pension, retirement or other benefits for our directors and officers other than to participate in statutory employee benefit plans mandated by the applicable laws. The four senior executive officers who are currently parties to the service contracts are Ms. Ting Zheng, Mr. Albert Chen, Ms. Rui Arashiyama and Ms. Xin Xu. These service contracts have substantially identical terms, except with respect of the duties of the executive and his or her compensation package.

The material terms under the employment agreements are as follows:

- The contract will be automatically renewed every three years until the death or incapacitation of the executive unless terminated by either party with notice.
- If the service contract is terminated by the executive within 30 days following a change of control of GCBC, the executive will be entitled to (i) all the salary and guaranteed bonuses actually accrued and payable to him/her as the case may be; (ii) immediate vesting of all of his/her unvested options; and (iii) a severance payment in the amount of \$5 million.
- GCBC may terminate a service contract without cause with at least 30 days' written notice, in which case the executive will be entitled to (i) all the salary and guaranteed bonuses actually accrued and payable to him/her as the case may be; (ii) the immediate vesting of all of his or her unvested options; and (iii) if the termination is made within two years of a change of control of our company, a severance payment in the amount of \$5 million.
- In all other cases, GCBC may terminate a service contract with cause at any time without notice, or the executive may terminate his or her service contract with at least 90 days' written notice, and in either case the executive will be entitled to all the salary and guaranteed bonuses actually accrued and payable to him/her but will not be entitled to the immediate vesting of all of his or her unvested options nor any severance payment.

In the service contracts, each executive is required to hold, both during and after his or her service contract expires or is terminated, in strict confidence and not to use, except for GCBC's benefit (including our affiliated entities and our subsidiaries), any proprietary or confidential information, including technical data and trade secrets of GCBC or the confidential information of any third party, including GCBC's affiliated entities and its subsidiaries, that GCBC receives. Each executive is also required to disclose to GCBC and hold in trust for GCBC all of the inventions, ideas, designs and trade secrets conceived of by him or her during the period that he or she is employed by GCBC, and to assign all of his or her interests in them to GCBC, and agreed that, while employed by GCBC and for a period of three years after termination of his or her employment, he or she will not serve, invest or assist in any business that competes with any significant aspect of GCBC business or solicit, induce, recruit or encourage any person to terminate his or her employment or consulting relationship with GCBC.

Incentive Plan

In February 2011, at our annual general meeting, our shareholders approved an Incentive Plan which has a mandate limit of granting rights to receive ordinary shares not exceeding 10.0% of our issued and outstanding share capital, to directors, officers, employees and/or consultants of GCBC and our subsidiaries. Certain administrative provisions of the Incentive Plan were subsequently amended by our Board of Directors in August 2014. The Incentive Plan is intended to enable the Company to attract, motivate, reward and retain the services of executives, directors and key employees. The Incentive Plan provides for the granting of RSUs, which may vest upon satisfaction of certain conditions set by the Compensation Committee of the Company. In December 2014, a total of 7,300,000 RSUs were issued to certain executives, directors and key employees under the Incentive Plan, subject to certain performance conditions. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

General Principles on Related Party Transactions

Our Audit Committee has adopted an internal policy regarding the identification, review, consideration and oversight of any transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we and any “related party” are participants. Transactions involving compensation for services provided to us as an employee, director, consultant or similar capacity by a related person are not covered. A related party is any executive officer, director or a holder of more than five percent of our ordinary shares, including any of their immediate family members and any entity owned or controlled by such persons.

Under our policy, where a transaction has been identified as a related party transaction, management must present information regarding the proposed related party transaction to the Audit Committee of our Board of Directors for review. The presentation must include a description of, among other things, the material facts, the direct and indirect interests of the related parties, the benefits of the transaction to us and whether any alternative transactions are available. To identify related party transactions in advance, we rely on information supplied by our executive officers, directors and certain significant shareholders. In considering related party transactions, the Audit Committee of our Board of Directors takes into account the relevant available facts and circumstances including, but not limited to the risks, costs and benefits to us; the impact on a director’s independence in the event the related person is a director, immediate family member of a director or an entity with which a director is affiliated; the terms of the transaction; the availability of other sources for comparable services or products; and the terms available to or from, as the case may be, unrelated third parties or to or from our employees generally. In the event a director has an interest in the proposed transaction, the director must excuse himself or herself from the deliberations and approval.

GCBC’s Board of Directors reviewed each of the following related party transactions and has concluded that, in light of known circumstances, each transaction is in, and is consistent with, its best interests and its shareholders.

On August 26, 2015, BCHIL transferred the convertible notes to Excellent China Healthcare Investment Limited (“ECHIL”). On the same day, Magnum Opus 2 International Holdings Limited (“Magnum 2”) acquired from BCHIL the convertible notes through acquisition of all the issued and outstanding shares of ECHIL. On January 4, 2016, Golden Meditech acquired from ECHIL the convertible notes and subsequently transferred the convertible notes to its wholly-owned subsidiary, GM Stem Cells.

On October 3, 2012, we completed the sale of \$50 million in aggregate principal amount of 7% senior unsecured convertible notes, which notes are mature on October 3, 2017 and are convertible into ordinary shares at a conversion price of \$2.838 per share, to Golden Meditech. In November 2014, Golden Meditech completed the sale of 50% of the convertible notes to each of Cordlife Singapore and Magnum Opus International Holdings Limited (“Magnum Opus”). In May 2015, Golden Meditech entered into agreements with Cordlife Singapore and Magnum Opus to purchase the convertible notes held by them. The acquisitions of convertible notes from Cordlife Singapore and Magnum Opus were completed in November and December 2015, respectively, and the convertible notes were subsequently transferred to GM Stem Cells.

In April 2017, GM Stem Cells converted all outstanding 7% senior convertible notes of \$115 million in aggregate principal amount into ordinary shares of the Company at a conversion price of \$2.838 per share. The conversion resulted in an issuance of 40,521,494 ordinary shares of the Company to GM Stem Cells.

Commercial Arrangements

During the year ended March 31, 2014, the Company entered into a commercial arrangement with Golden Meditech for the procurement of raw materials that are essential to the automated stem cells extraction process. Prices for materials which the Company purchases from Golden Meditech are identical to the prices which Golden Meditech will charge to other independent third parties in the PRC, and the other terms offered to the Company are no less favorable than those offered to other independent third parties. For the years ended March 31, 2017 and the period from April 1, 2017 to January 31, 2018, the Company purchased raw materials of RMB36.4 million and RMB18.8 million from China Bright Group Co. Limited (“China Bright”), a subsidiary of Golden Meditech. Since February 1, 2018, Golden Meditech and China Bright were no longer related parties of the Company.

During the year ended March 31, 2017, the Company performed a consultation service related to the usage of cord blood processing devices and consumables and recorded RMB16.8 million as a reduction of direct costs. Golden Meditech is a distributor of such devices and consumables in the PRC and the Company is a customer of Golden Meditech. Since the consideration of the consultation service cannot be sufficiently separated from the Company’s purchases of such devices and consumables and the fair value of the benefit provided for cannot be reasonably estimated either, the consideration received from Golden Meditech was recorded as a reduction of direct costs as associated cord blood processing devices and consumables which the Company purchased from Golden Meditech were consumed and included in direct costs. The terms and conditions of the arrangement were reached through arm’s length negotiation.

During the year ended March 31, 2017, the Company entered into a collaboration agreement regarding a commercial arrangement with Golden Meditech. Utilizing the Company’s existing donated cord blood samples resources, the Company provided Golden Meditech with exclusive access to certain data derived from a small portion of donated cord blood samples, in return for a fee of RMB26.3 million. The terms and conditions of the arrangement were reached through arm’s length negotiation.

During the year ended March 31, 2018, the Company entered into a commercial arrangement with Golden Meditech for the purchase of raw materials and machineries for the automated stem cells extraction process. Prices for materials and machineries which the Company plans to purchase from Golden Meditech are identical to the prices which Golden Meditech will charge to other independent third parties in the PRC, and the other terms offered to the Company are no less favorable than those offered to other independent third parties. For the period from April 1, 2017 to January 31, 2018, the Company purchased raw materials and machineries of RMB19.4 million from Beijing Jingjing Medical Equipment Co., Ltd. (“Beijing Jingjing”), a subsidiary of Golden Meditech. Since February 1, 2018, Golden Meditech and Beijing Jingjing were no longer related parties of the Company.
