"Despite the difficult market conditions resulting from the unprecedented COVID-19 pandemic and a continued decrease in newborn numbers in the markets in which we operate, we managed to recruit over 84,000 new subscribers during fiscal 2020 and achieved our full-year target," said Ms. Ting Zheng, Chairperson and Chief Executive Officer of GCBC. "As the impact of COVID-19 lingers, hospitals in China have implemented strict access rules, and consumers remain cautious on inter-personal contact and discretionary spending. In addition, the regulatory uncertainties of the cord blood banking industry in China continue to exist. Therefore, we believe that the business environment for the next fiscal year will remain challenging. However, we will continue to execute on our strategy to overcome the short-term challenges, focus on achieving operational targets, and explore business opportunities to pave a solid path for our long-term development."

Recent Developments

On June 4, 2019, the board of directors of the Company (the "Board") received a non-binding proposal letter from Cordlife Group Limited ("Cordlife"), a company listed on the Mainboard of the Singapore Exchange Securities Trading Limited ("SGX"), pursuant to which Cordlife proposed to combine the businesses of Cordlife and the Company, by way of a statutory merger. According to the letter, Cordlife would issue approximately 2,497.9 million ordinary shares at an issue price of SGD0.5 per ordinary share in exchange for all of the outstanding ordinary shares of the Company at \$7.50 per ordinary share. Upon completion of the proposed transaction, the Company's ordinary shares would be delisted from the New York Stock Exchange, and Cordlife ordinary shares would continue to trade on the SGX. On June 5, 2019, the Board formed a special committee of independent directors (the "Special Committee") who are not affiliated with Cordlife to evaluate such proposal.

On November 11, 2019, the Company appointed Mr. Jack Chow as an independent non-executive director ("INED") of the Board. Mr. Chow has extensive professional experience and a broad network in the finance and investment industry. He replaced Mr. Mark Chen as a member of the Audit Committee and Ms. Jennifer Weng as a member of the Special Committee. Mr. Chow also joined the Board's Compensation Committee and Nominating and Corporate Governance Committee.

On February 6, 2020, the Company appointed Mr. Jacky Cheng as an INED of the Board. Mr. Cheng has extensive professional experience and knowledge in legal and compliance and Chinese laws. He joined the Board's Compensation Committee as a member and the Company's Special Committee as a member. Currently, the Special Committee is composed of four members, including Mr. Mark Chen, Dr. Ken Lu, Mr. Jack Chow, and Mr. Jacky Cheng.

The Company cautions its shareholders and others considering trading its ordinary shares that no decisions have been made with respect to the Company's response to the proposed transaction with Cordlife. The proposed transaction is still subject to various conditions, including but not limited to, completion of due diligence, parties entering into a definitive agreement, and/or each of Cordlife and the Company obtaining its relevant regulatory and shareholder approvals. In addition, litigation has been filed in the Cayman Islands challenging the proposed transaction. There can be no assurance that any definitive offer will be made, that any agreement will be executed, or that this or any other transaction will be approved or consummated.

¹ During the three months and year ended March 31, 2020, 18,488 and 84,241 new subscribers were recruited, respectively. The Company reclassified 394 and 1,420 private cord blood units as donated cord blood units during the three months and year ended March 31, 2020, respectively, after the Company determined that the recoverability of these prior private cord blood banking subscribers was remote. Therefore, the Company terminated their subscription services according to the subscription contracts and these units are being treated as if they were donated cord blood units and will be part of the Company's non-current inventories. Hence, the net accumulated subscriber base was 833,094 as of March 31, 2020.
